

My local KLOVE radio station truly serves our community to spread inspiration and joy for living through it's music. Most of my friends listen to the station all day for positive encouragement. If this station was replaced by an LPFM station, a large group of the population now being served by this ministry would no longer be served - this would be a great loss to us all as KLOVE inspires us to live stronger, more contributing, more giving and more thankful lives. The station encourages us to help others around us and to keep a clear head in times of trouble. The station provides the inspiration that so many of us need for daily living. Please work to make sure that this great public asset is not lost- thank you so much for your time, Sherry Tolbert
